

Activity Evaluation Form and Application for Continuing Medical Education Credit

THE Aesthetic Show 2017

Advanced Hands-On Injectable Training – Dermal Filler Techniques

July 6, 2017 • The Wynn Resort

We greatly value your opinion. Please complete this evaluation and submit it to the registration desk at the conclusion of this activity. Your responses will be used in future planning of activities and materials.

I am a: MD DO PharmD RN NP PA Other _____

Upon completion of this activity, participants will be able to:	Strongly Disagree	Disagree	Agree	Strongly agree
<ul style="list-style-type: none"> Describe the aesthetic evaluation process, especially as it relates to assessing and restoring volume to the face and needs for facial rejuvenation. 	1	2	3	4
<ul style="list-style-type: none"> Compare botulinum toxin treatment and dermal filler treatment outcomes, safety, risks, complications, costs and benefits, among other factors that may be applicable to your practice. 	1	2	3	4
<ul style="list-style-type: none"> Choose an appropriate neurotoxin or dermal filler based on the area of desired correction 	1	2	3	4
<ul style="list-style-type: none"> Select appropriate augmentation therapies based on patient characteristics, needs and goals. 	1	2	3	4
<ul style="list-style-type: none"> Demonstrate the advanced injection techniques required to obtain optimal results in the aging face 	1	2	3	4
<ul style="list-style-type: none"> Distinguish how appropriate injection techniques and proper patient selection can minimize complications 	1	2	3	4
Please indicate the extent of your agreement with the following statements:	Strongly Disagree	Disagree	Agree	Strongly agree
<ul style="list-style-type: none"> The faculty for this activity were effective 	1	2	3	4
<ul style="list-style-type: none"> The teaching and learning methods were effective 	1	2	3	4
<ul style="list-style-type: none"> The learning assessment used for this activity was appropriate 	1	2	3	4

- Overall, was this activity free from bias?
 - Yes
 - No
- Of the patients you will see in the next week, about how many will benefit from the information you learned today?
 - More than 50
 - 26 to 50
 - 11 to 25
 - 1 to 10
 - Not applicable
- Based on what I learned today, I will improve my practice by incorporating the following (check all that apply):
 - Improved diagnosis/patient assessment
 - Useful therapies and appropriate uses
 - Cutting-edge science in this therapeutic area
 - Best practices of my colleagues and leaders
 - I do not plan to make any changes to my practice at this time
 - Other (explain) _____

- Which ONE delivery method do you find the most effective for CME/CE learning?
 - Live symposia at national/regional conferences
 - Live local meetings
 - Live grand rounds
 - Internet webcasts
 - Internet/print monographs
 - Other (explain) _____

- Please rate the professional practice value of each of the following in terms of improving your practice:

	Least Valuable	Somewhat Valuable	Valuable	Most Valuable
Today's CME event	1	2	3	4
Direct to consumer advertising	1	2	3	4
Sales representative visits	1	2	3	4
Promotional/other non-certified education	1	2	3	4

- Based on your experience, which of the following are the primary barriers to implementing changes in practice (check all that apply):
 - Lack of knowledge regarding evidence-based strategies
 - Lack of convincing evidence to warrant change
 - Lack of time/resources to consider change
 - Insurance, reimbursement or legal issues
 - Other (explain) _____
- What motivated you to participate in this activity?
 - CME credits
 - Faculty
 - Topic or Therapeutic area
- According to the American Society for Aesthetic Plastic Surgery, which age group is now receiving the largest number of aesthetic procedures?
 - 20 to 35 years
 - 35 to 50 years
 - 50 to 62 years
 - 62 to 70 years
 - Younger than 35 years
- A 31-year-old woman with some mid-face volume loss, which is contributing to a mild tear trough deformity and an early nasolabial fold, consults you for an initial aesthetic evaluation. She also has moderate glabellar lines. What do you tell this patient?
 - She should postpone initial treatment with fillers until she is older and volume loss is more significant
 - Initiating filler treatment early is easier, more cost-effective, and more likely to produce satisfying results
 - Treatment with neurotoxin for the glabellar lines can be initiated now, but treatment of volume loss should be postponed until she is older
- Foreign body granulomas occur at certain rates with all injectable dermal fillers. They have to be distinguished from early implant nodules by noting that they:
 - a) usually appear 2 to 4 weeks after injection
 - b) usually appear several months at all injected sites at the same time
 - c) usually resolve without treatment
 - d) usually appear in only one treated area
